Emlong's 1927 Price List

Figure Prices Correctly The prices given below apply separately to each variety. For example, the price of 200 plants in column three is \$1.65, but should you order 100 plants each of two different varieties, the price will be \$1.00 for each variety. More than 500 plants of a variety sold at the 1000 rate.

Column 1	Column 2	Column 3	Column 4	Column 5	Column 6

IF YOU PREFER you may order two, four or eight thousand plants of either of the above varieties.

The "Big Three" Strawberries

SPECIAL LOW PRICE DEMONSTRATION BLOCKS

There never has been and probably never will be another trio of Strawberries that will equal Premier Early, Cooper Mid-season and Pearl Late as a money making combination. If we were planting 100 acres for fruiting it would be planted solid to these three great varieties and the new Mastodon. There is big money in Strawberries and by planting one of these demonstration blocks you are assured unusual profits. You will get the fancy prices always paid for extra early and extra late berries. Your berries will sell for a premium above all others—because all of your berries will be EXTRA FANCY.

Instructions for Ordering

WHEN TO ORDER. The sooner the better and as a special inducement to have you send in your order early we allow a discount of 7 per cent on orders received during January, 5 per cent on orders received during February and 2 per cent on orders received during March. This discount applies only when cash in full accompanies the order. It is to our mutual advantage when you order early, as it relieves us of office work during the rush season, and as our stock is complete you are certain to find what you want.

HOW TO ORDER. Use order blank, and be sure to fill this in correctly. We are anxious to give you prompt, efficient service and you can aid us greatly in doing this if you will write your name and address carefully and give the other information called for.

FIGURE PRICES CORRECTLY. For instance, if you order 100 strawberry plants of three different varieties, 300 plants in all, you must figure them at the 100 rate and not at the 300 rate. Or if you order ten fruit trees of ten different varieties you must figure them at the each rate and not at the ten rate. This will save delay and unnecessary correspondence.

HOW TO SEND MONEY. Our terms are cash, or when orders amount to \$10.00 or more we will book the order with a cash payment of one-fourth the amount and balance can be sent any time before shipment. Remittance may be made by check, bank draft, postal or express money orders or cash in registered letters. We acknowledge orders the same day they are received.

PARCEL POST SHIPMENTS. See catalog page 26 for full particulars regarding parcel post shipments.

OUR SHIPPING SEASON. Owing to our ideal soil and location, we can make shipment usually a week sooner than other Michigan growers, usually beginning about March 20th, and continuing until June. In the Fall our stock is fully matured by October 1st and we can ship during October and November.

PROMPT SERVICE—QUICK DELIVERY. We are equipped to handle hundreds of orders every twenty-four hours and as we are only 70 miles from Chicago, where quick transfer is made to all railway lines east, west and south, you are assured prompt service and delivery when you deal with us.

NO CHARGE FOR PACKING. We make no charge for wrapping and packing, which is done in the best possible manner by trusted men of long experience. Plenty of damp moss is used so that the stock will reach you in perfect growing condition.

ALL STOCK TRUE TO NAME. As our stock is all labeled when dug it is practically an impossibility to send you stock that is not true to name. However, should such a mistake occur we will replace same free of charge or refund your money. Your order is accepted with the understanding that in no case will we be held liable for more than the original purchase price.

IN CASE OF ERROR OR SHORTAGE notify us immediately, as we are not satisfied until you are. As soon as you receive your order, check it over, and if not correct, notify us immediately, advising number of packages or crates received.

Parcel Post Shipments

For orders weighing less than 50 pounds we recommend parcel post, as it is the safest, quickest and most economical method of shipment. If you reside on a rural route the plants will be delivered to your door; this will avoid delay in planting. We make no extra charge for wrapping or packing parcel post or express shipments. You order your stock at prices quoted in this catalog and when stock arrives

Pay Mail Carrier or Postmaster Parcel Post Charges

IT IS CHEAPER for you to pay the parcel post charges when you receive the goods, because when you pay a flat rate for postage you usually pay much more than the actual cost, as it is impossible to accurately estimate the weight of fruit plants or other nursery stock.

IT IS SAFER because packages that are sent C. O. D. for the charges are given preference by

postal clerks and will be delivered promptly and in the best possible condition.

IT IS EASIER for you to order because by the old method it was necessary for you to find out which zone you were in, to know how much to include for postage. By this method you remit only the price of the plants, and when they arrive your postmaster or mail carrier tells you the cost of postage.

Emlong's Prices and Complete Variety List of Fruit Trees

IMPORTANT NOTICE Figure prices correctly. For instance, if you order ten trees of ten different varieties, or three trees of three different varieties, prices must be figured at the each rate and not at the ten rate. Figure ten to forty trees of one variety at the ten rate and more than forty at the hundred rate.

PEACH TREES	Each	10	100
1 year, 3 to 5 ft.	\$0.25	\$2.25	\$20.00
1 year, 5 to 6 ft.40	3.50	28.00
